Education

Uttarakhand Technical University **Dehradun, Uttarakhand**
B.Tech. in Computer Science (Specialization: AI & ML) *Aug. 2022 – June 2026*

Relevant Coursework

- | | | | |
|-------------------------------|-----------------------|---------------------------|-------------------------------|
| • Data Structures | • Machine Learning | • Artificial Intelligence | • Natural Language Processing |
| • Object-Oriented Programming | • Database Management | • Deep Learning | |

Experience

Explorin — Trainee **July 2025 – August 2025**

Onsite

- Worked on multiple projects including an e-commerce website, inventory management system, and blog platform.
- Built full-stack applications leveraging Next.js, Radix UI, Prisma, GraphQL, and JavaScript.
- Integrated modern UI components with Radix UI and implemented database access using Prisma ORM.
- Enhanced API performance and maintainability by adopting GraphQL for data querying.

Projects

DarkStore IMS | React, MongoDB, Next.js, Prisma, Recharts, GraphQL **July 2025**

- Developed a full-stack inventory management system to streamline dark store operations.
- Implemented role-based access control, allowing admins to create staff accounts and assign specific permissions.
- Designed interactive dashboards using Recharts to visualize sales performance and trends in real time.
- Integrated secure APIs with Prisma ORM for efficient database operations and MongoDB for scalable data storage.

Trip Bandhu — AI Trip Planner | Next.js, ConvexDB, Clerk, shadcn/ui, Mistral Small 3.2 24B **July 2025**

- Built an AI-powered trip planning platform to create personalized trip timelines and manage itineraries.
- Integrated ConvexDB for real-time data storage and synchronization, and Clerk for secure authentication.
- Implemented AI itinerary generation using Mistral Small 3.2 24B to recommend day-by-day trip activities.
- Developed a responsive and modern UI with React, Next.js, shadcn/ui, and Acernity UI.

HealSync | Next.js, Prisma, Tailwind CSS, MongoDB, Clerk, Shadcn, Vercel **Sept 2025**

- Developed a doctor appointment platform with features for booking, canceling, and managing consultations.
- Built a doctor dashboard to accept/reject appointments, attend video calls, and add patient notes.
- Implemented an admin panel to verify/suspend doctors and manage patient activities.
- Integrated authentication with Clerk and designed a responsive, modern UI using Shadcn and Tailwind CSS.
- Deployed the platform on Vercel ensuring seamless performance and accessibility.

Technical Skills

Languages: Python, C/C++, MySQL, JavaScript, HTML5, CSS, TypeScript
Frameworks: Next.js, GraphQL
Developer Tools: Git, VS Code, Eclipse
Libraries: React, Prisma ORM

Certifications

Career Essentials in Generative AI — Microsoft & LinkedIn Learning (View Certificate) — Covered fundamentals of AI, Generative AI, and Responsible AI

SQL (Basic) Certificate — HackerRank (View Certificate) — Validated skills in queries, relationships, and aggregations

CSS (Basic) Certificate — HackerRank (View Certificate) — Learned cascading, inheritance, and web styling basics
